THEMATIC GUIDELINES:
This year’s theme is PLACE: Creating Community, Gaining Ground, and Building Belonging in and through Community Engagement.

- Show us how your work ensures high-impact practices are accessible and meaningful for all students in a way that honors their identity and fits with their levels of comfort, experience, and goals.
- Show us how your work includes community voice in all community engagement – “nothing about me without me.”

Preference will be given to concurrent workshop proposals that address at least one of the following three goals:

- How your college/university’s role as a place-based institution has developed, shared, and unified campus and community resources to accelerate systematic change and improve the quality of life for Hoosiers.
- How you’ve accelerated the number of hands-on, place-based experiences for college students so they develop into the next generation of civic leaders and community-minded workforce in Indiana, and are prepared for a life of community engagement.
